

Guidelines for Online EWSN 2021 Participation

Registration: please first register for the EWSN 2021 conference and co-located workshops and tutorials through this link: <https://ewsn2021.ewi.tudelft.nl/registration>. After the registration, you will be invited by email to join the EWSN 2021 Slack.

EWSN 2021 Slack: <https://ewsn2021.slack.com/>. Different channels have been created for the sessions of the main conference, posters and demos, the workshop, and the tutorials. These channels are named as follows: `#feb-<date>-<a/b/c/d/e>-<event>`. The `<a/b/c/d/e>` is used to sort the channels in the correct time order. A screenshot of the channels is presented below:

The **Zoom Webinar Links** can be found in the description of each Slack Channel (they are also pinned to each Slack Channel). A sample screenshot is below:

A screenshot of a Slack channel description and a pinned message. The description is for the #feb-18-b-session-2 channel, created on February 5th, with a time of 13:30-15:00 CET and a Zoom webinar link: https://zoom.us/j/97367644502?pwd=cno3R0pFZmUyQklhdWpFT05WWEVTZz09. The pinned message is from Qing Wang - TU Delft, dated 4:55 PM, and contains the same channel description and Zoom link.

IMPORTANT information for the Keynote speakers, Session Chairs and Presenters of the main conference: Please arrive at your session (in both Zoom and Slack) 10 minutes before the scheduled start time. The list of the Session Assistants can be found at the end of this tutorial. To enable the Session Assistant to identify you, ensure that your name in Zoom is the

same as in the registration. Further instructions for the Keynote speakers and Sessions Chairs are described below.

Keynote speakers: Each keynote will have a Session Assistant and Moderator. The assistant will provide support with the Zoom channel, and the moderator will introduce you and handle the Q&A. After the moderator’s introduction, please share your screen and begin the presentation. Since the keynotes are live, please make sure you have a reliable (wired) Internet connection.

Session Chairs: The pre-recorded video of the presentation will be played by the Session Assistant. **As the Session Chair, you do NOT need to get involved** in playing the pre-recorded videos. You just need to introduce the presenters (their bios can be found in the corresponding slack channel), monitor the questions in the Zoom Webinar, and ask the corresponding Presenters to answer them.

IMPORTANT information for the Participants: Please use the Q&A button in the Zoom Webinar to ask questions to the presenters. You can also upvote the questions posted by others. At the end of each paper session of the main conference, please participate in the voting for the best-in-session presentation. At the end of each session, a Zoom poll will pop up for you to select the best presentation.

Appendix A: List of Session Assistants (can be contacted via Slack)

Date	Event	Name of Session Assistant
Feb 17	PhD Forum	Qing Wang
	Tutorial 1: Intrabody...	Talia Xu and Hanting Ye
	Tutorial 2: IoT...	Qing Wang
	Workshop CHIIoT	Talia Xu and Marco Zuniga
